Grade: 8.3 CGPA

PROJECTS

Food Munch [Link](#)

- Developed a responsive website for a Food Store where users can view a list of food items, detailed information about a food item, and offers.
- Designed pages using HTML structure elements like li, header, article, footer, and various Bootstrap components to create different sections and ensure responsiveness through a mobile-first approach.
- Implemented product YouTube videos using Bootstrap embed and modal components.

Todos Application [Link](#)

- Developed a comprehensive todo management tool designed to enhance productivity.
- Created a user-friendly interface with HTML, CSS, and Bootstrap for ease of use and implemented JavaScript-based CRUD operations with dynamic UI updates.
- Ensured task persistence using local storage methods.

Wikipedia Search Application [Link](#)

- Developed a custom Wikipedia search application where users can search and view curated results with detailed explanations on Wikipedia by clicking on specific results.
- Displayed search results using HTML list elements styled with CSS and Bootstrap, ensuring responsiveness with Flex properties and the CSS Box model.
- Fetched search results asynchronously using fetch GET HTTP API calls and implemented functionality to open results in a new tab using the target attribute of anchor tags.
